

Monitored Premises Status Questionnaire

Name: _____

Date: _____

Relevant permit numbers: _____

TRACEABILITY

1. What is the national Premises Identification Number (PIN) for the premises? _____

HPAI

2. Does premises have a diagnosis of HPAI? Yes No

If YES, please explain _____

3. Does premises have any unexplained clinical signs or clinical signs indicating HPAI? Yes No

If YES, please explain _____

4. Does premises have any unexplained mortality or mortality indicating HPAI? Yes No

If YES, please explain _____

5. Does premises have any unexplained changes in production parameters or production parameters indicating HPAI? Yes No

If YES, please explain _____

Note: YES answers will be referred to Incident Command for follow-up.

EPIDEMIOLOGICAL LINKS/EXPOSURES TO INFECTED PREMISES

“Contact” premises are premises with poultry that have been exposed directly or indirectly to poultry and other animals, animal products, fomites, or people from an “Infected” premises.

There is a need to obtain the most current information about “Infected” premises in order to answer the following questions. This may be done by: 1) checking with Incident Command; 2) if your state has an interactive map; or 3) other way of communicating about outbreaks.

Date and time when status of “Infected” premises was checked:

_____ am or pm
MM/DD/YYYY HH:MM

After reviewing the most current information about “Infected” premises, please complete the following questions to assess potential exposures (ie, to determine if the premises is a “Contact” premises).

6. Has this premises been exposed to poultry manure from an infected flock (HPAI virus in manure) in the past 14 days?

Yes No Unknown

If YES or UNKNOWN, please explain _____

7. Has this premises been exposed to dead poultry from an infected flock (HPAI virus in carcasses, etc.) in the past 14 days?

Yes No Unknown

If YES or UNKNOWN, please explain _____

8. Has this premises been exposed to live poultry from an infected flock (HPAI virus in bird secretions and excretions) in the past 14 days?

Yes No Unknown

If YES or UNKNOWN, please explain _____

9. Has this premises been exposed to eggs or egg-handling materials from an infected flock (HPAI virus in and on eggs from infected birds) in the past 14 days?

Yes No Unknown

If YES or UNKNOWN, please explain _____

10. Has this premises been exposed to semen or semen-handling materials from an infected flock (HPAI virus in semen) in the past 14 days?

Yes No Unknown

If YES or UNKNOWN, please explain _____

11. Has this premises had unmitigated exposure* to equipment that has been in contact with poultry manure, dead poultry, live poultry, eggs, egg-handling materials, semen, or semen-handling materials from an infected flock in the past 14 days?

Yes No Unknown

*Details: Unmitigated exposure means inadequate sanitation procedures for those items that come into contact with an infected flock or infectious materials such as the following:

- Trucks/trailers used to transport live birds to another live bird premises (including poult trailers, pullet carts/dollies, transport cages/coops, etc.)
- Live-haul trucks/trailers to transport live birds to market (including spent fowl carts/dollies and trucks, transport cages/coops, etc.)
- Mechanical harvesters
- Gates/panels
- Pre-loaders
- Loaders
- Roll-offs
- Dumpsters
- Kill carts
- Refrigeration trucks
- Freezers
- Manure handling/hauling/application equipment
- Litter conditioning/hauling/application equipment
- Compost handling/hauling/application equipment
- Egg carts/dollies, egg pallets/boards and dividers, egg flats
- Trucks used to transport hatching or shell eggs
- Trucks used to transport eggshells
- Tanker trucks used to transport liquid egg or inedible egg product
- Day-old chick or poult box dollies, trucks used to transport day-old chicks or poults
- Forklifts, skid-steers
- Pressure sprayers/washers
- Lawn mowers
- Artificial insemination equipment (chairs, shakers, etc)
- Coolers
- Semen vials

If YES or UNKNOWN, please explain _____

12. Has this premises had unmitigated exposure to people who have been in contact with poultry manure, dead poultry, live poultry, eggs or egg handling materials from an infected flock in the past 14 days?

Yes No Unknown

Details: Unmitigated exposure means inadequate biosecurity, sanitation, or downtime procedures for those people that come in contact with an infected flock or infectious materials such as might happen with the following activities:

- Contact with wild birds, waterfowl, or backyard poultry, including via hunting or fishing
- Working at other poultry operations
- Living or associating with someone who works at other poultry operations
- Visiting other poultry operations
- Visiting a poultry processing plant
- Visiting a rendering plant
- Visiting a manure handling plant
- Visiting a garbage facility
- Visiting a landfill

If YES or UNKNOWN, please explain _____

13. Have the people or the equipment from this premises been involved in the depopulation of infected flocks in the past 14 days?

Yes No Unknown

If YES or UNKNOWN, please explain _____

Note: YES and UNKNOWN answers will be referred to Incident Command for follow-up.

BIOSECURITY

14. Is an Accredited Veterinarian (or other Biosecurity Coordinator) responsible for the development, implementation, maintenance, and ongoing effectiveness of a premises biosecurity program that conforms to the NPIP guidelines?

Yes No

If NO, please explain _____

Note: NO answers will be referred to Incident Command for follow-up.
